Introduction

What does it do?

This extension offers some TS default configurations for pages and users. It offers page tree icons too.

You can enable and disable eight configuration options:

All backend users should

- have an AdminPanel by default
- be able to clean the TYPO3 cache
- will see a page tree with uids
- have activated [Extended view], [Display thumbnails] and [Show clipboard] in all forms of the module "file list"

All pages should display

- a reduced menu in the modul web pages: without the items Quick Edit and Page Information
- forms for pages without the fields alias and content from pid
- forms for content with four headers only and a proper translation
- have activated [Extended view] and [Show clipboard] in all forms of the module "web list"

The extension offers page tree icons for

- flags in five colours
- folders in 10 colours and 11 types
- one library
- one TypoScript template

Install

Install this extension.

Configure pageTS

Configure the default page TS with the extension manager.

Configure userTS

Configure the default user TS with the extension manager.

Page tree icons

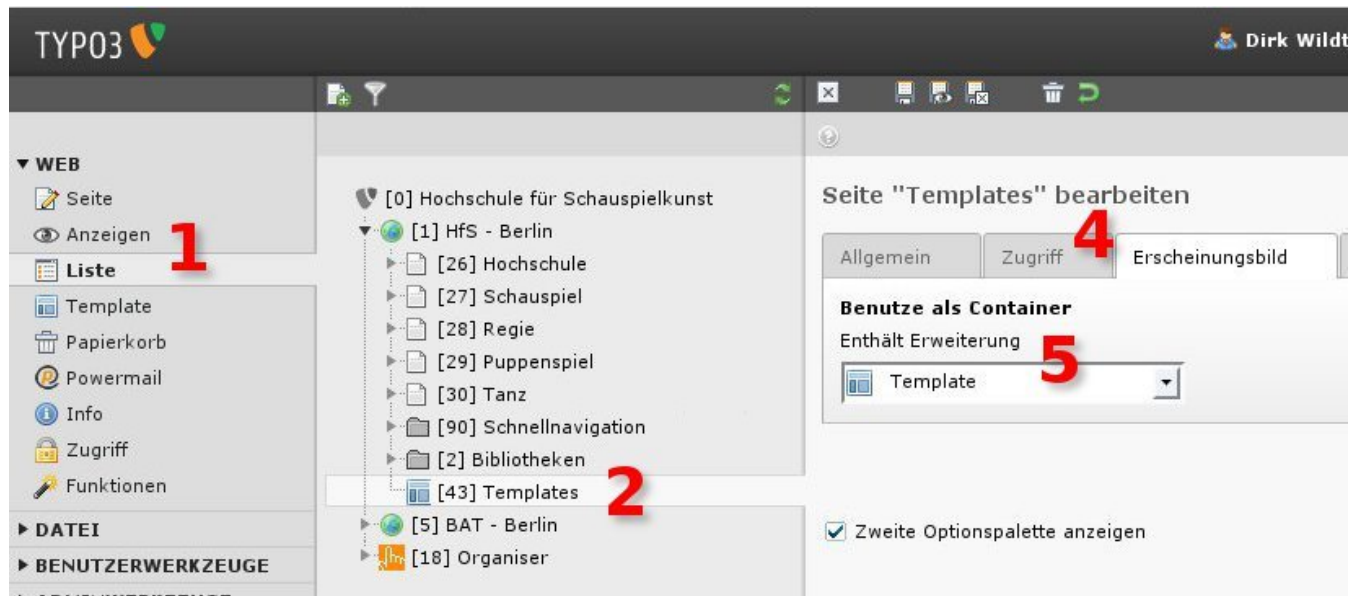

Illustration 4: Template icon as page tree icon (2)

You can change the sysfolder default icon to a template icon like in the illustration below (2).

If you like the TypoScript template icon as a page tree icon, please follow this steps:

1. Modul web > list
2. Page tree: select the page with your TypoScript templates
3. Edit area: edit the page properties
4. select the tab [Appearance]
5. select in the field [Contains Plugin]: Template

Illustration 5: Icons

Further Information

Other extensions published by Die Netzmacher

-  Browser - the TYPO3-Frontend-Engine. The Browser is the fast way for your data to the TYPO3 frontend. It displays content from related tables. You need 1 line TypoScript for a result list with a search form, a record browser and an a-z browser. Images are wrapped self-acting. SEO, Search Engine Optimization, is integrated.
<http://typo3-browser.de/>
-  Browser for BZD Staff Directory. List view and single view for the extension BZD Staff Directory. It is out of the box. You can edit the views by TypoScript. You can add fields and whole views.
http://typo3.org/extensions/repository/view/browser_bzdstaffdirectory/current/
-  Green Cars (Grüne Autos) - Database optimized for ecological cars. It is a case study and demonstrates, how to get a complex database with the browser (see above) in three hours only.
<http://gruene-autos.org/>
-  Jobmarket is a catalogue with job offers. Views, the a-z-browser, the page-browser, the search, social bookmarks and a lot of other stuff can configured by the Browser plugin with the mouse. Job Market hasn't any PHP code, it should be easy to adapt it to your needs.
<http://typo3-jobmarket.de/>
-  Juridat - Database for Juridical Data. Juridat provides a juridical data base with backend functionality. Juridat is out of the box. It is a teamwork with the Browser.
<http://typo3.org/extensions/repository/view/juridat/current/>
-  logical_form: A frontend plugin for evaluating forms. I.e you can evaluate mail addresses.
http://typo3.org/extensions/repository/view/logical_form/current/
