Introduction

What does it do?

This extension offers some TS default configurations for pages and users.

You can enable and disable eight configuration options:

All backend users should

- have an AdminPanel by default
- be able to clean the TYPO3 cache
- will see a page tree with uids
- have activated [Extended view], [Display thumbnails] and [Show clipboard] in all forms of the module "file list"

All pages should display

- a reduced menu in the modul web pages: without the items Quick Edit and Page Information
- forms for pages without the fields alias and content from pid
- forms for content with four headers only and a proper translation
- have activated [Extended view] and [Show clipboard] in all forms of the module "web list"
